

Sample docs-as-code ladder

Three public Git repos for [hosted.devdocs.ai](#) ingestion demos. Start simple, add API contracts, then show a full platform knowledge base.

SIMPLE1

Hello

Hullo CLI

sample-docs-as-code-hello-docs

Ship a real docs repo by Friday.

Flat navigation for a mock HTTP CLI.
Enterprise structure without the ceremony.
Easy to open live in a meeting.

NAV

Flat

PAGES

~9

SLUG

helloapi

EXTRAS

llms.txt

Frontmatter: owners, status, review date

CI checks, lint, dry-run build

Assets, Spanish stub, version notes

CODEOWNERS and Dependabot

ASK AFTER PUBLISH

How do I change the port Hullo serves on?

MEDIUM2

Acme

Acme Parcel API

sample-docs-as-code-acme-api

What API teams already know.

REST docs with guides, field tables, and a changelog. OpenAPI and AsyncAPI live next to the Markdown.

NAV

Two levels

PAGES

~21

SLUG

acmecloud

EXTRAS

OpenAPI

Guides, reference, FAQ, changelog

OpenAPI and AsyncAPI artifacts

Reusable auth and error snippets

Webhook signature walkthrough

ASK AFTER PUBLISH

How do I verify a webhook signature?

COMPLEX3

Nimbus

Nimbus Platform

sample-docs-as-code-nimbus-platform

A knowledge system, not a README.

Deep navigation and clear content types.
Glossary, release notes, and enough pages to stress retrieval.

NAV

Three levels

PAGES

~43

SLUG

nimbus

EXTRAS

Redirects

Concepts, guides, tutorials, reference

Glossary, release notes, redirects

Diagrams in Mermaid and SVG

Cross-section questions for chat

ASK AFTER PUBLISH

How do I add a custom domain to a service?

ON EVERY SAMPLE REPO

1Vale and markdownlint

2Assets with alt text

3Spanish locale stub

4Version note pages

5Pinned Actions, Dependabot

6PR preview comment

7OpenAPI and AsyncAPI

8Snippet includes

9CODEOWNERS

10Meta repo and demo script

Git PR → npm test → Broker push → Site and chat
